Title: Leadership and Community – Through a School District Mission, Vision, and Philosophy

Abstract: School district leadership plays an important role in creating a sense of community in a rapidly changing society. This presentation and research highlight how a team of district-level leadership can provide support to its community through service and events while working to fulfill its mission, vision, and philosophy. Consistent team-oriented leadership and purpose can lead to developing principles that drive organizations, build trust, promote voices and perspectives from stakeholders, and develop a sense of unity within the community. The presentation will focus on recent community engagement events and highlight qualitative data through images and pictures.
